'Reach the Soul of a Child – Transform a Life'

Toley Ranz™ is a child's strong inner voice teaching to be aware of Self; enhancing self-esteem, manifesting profound inner security, and accepting responsibility for their own actions.

Toley Ranz, dipped in warm bright light, appears suddenly- to kids only; without being visible to adults, it conveys the help and solutions children so desperately need and seek.

Toley Ranz encourages the child to embrace the love and respect for self, the understanding of others; and it supports the child's awareness of the now.

Toley Ranz is the 'security blanket' of today's child; it is *their Secret* to a bright future with self- awareness, self-esteem, and success.

Toley Ranz speaks to children with the soft sound of "*psst-psst, listen...!*" signaling that help is on its way when 'something is up'.

The simple sound of *psst-psst* is the secret communication tool between **Toley Ranz** and the child in need; the *psst-psst* reverberates wherever children are present.

Children benefit from Toley Ranz through its teachings and support of building inner strength, providing the feeling of security, getting in touch with their own feelings and their expression, as well as learning and embracing basic social skills. **Toley Ranz's** message has a long-lasting impact on children, families, classrooms, i.e., on today's society.

"The time is right! Toley Ranz is the secret tool and the inspiration for kids' joyful and fear-free future...Toley Ranz is what's been missing in children's educational entertainment...Toley Ranz is the answer!"
